December 5, 2024

## **Sanger Public Library To Temporarily Close For HVAC System Replacement Starting January 6, 2025**

**SANGER, CA** - The Sanger Public Library will temporarily close starting January 6, 2025, to allow for the replacement of the library's HVAC system. The project is expected to take approximately four months. Efforts are underway to complete the work as efficiently as possible, and the library may reopen sooner if progress allows.

### **Alternate Service Locations**

During the temporary closure, patrons are encouraged to visit nearby branches to continue accessing library services. For those who use the library's "holds" feature, reserved items will automatically be sent to the Sunnyside Branch Library for pickup. However, patrons may also choose an alternate pickup location through the library's website.

### **Nearest Public Library Locations to the Sanger Public Library:**

**Sunnyside Public Library:** 5566 E Kings Canyon Rd, Fresno, CA 93727

**Fowler Public Library:** 306 S 7th St, Fowler, CA 93625

Both locations offer complete library services, including book checkouts, computer access, and a variety of programs for all ages. In addition, the Fresno County Public Library's digital collection remains available through the Libby app, offering eBooks, audiobooks, and other digital resources accessible from anywhere at any time.

### **About the Project:**

Fresno County's Internal Services Department is facilitating the HVAC system replacement project, which is part of a broader initiative to improve library facilities across the county and ensure local branches continue to meet the evolving needs of their communities.
